Farhan Khan

Driving growth and innovation by integrating Generative AI solutions for teams | Founder AI LearnX Innovations | Ex-Global Director - Respect.ai, Honda, Yamaha, Bosch, HMC | IIM Lucknow
South Delhi, Delhi, India

Summary

I am an AI & business strategy leader with 19+ years of experience across AI, sales, digital transformation, marketing, and entrepreneurship. My career spans global enterprises and startups, where I've led business growth, AI-driven transformation, and product innovation.

Having worked with industry leaders like Honda, Yamaha, Bosch, and Hero Motors Company, I've gained deep expertise in go-to-market strategies, digital transformation, and AI-driven automation. These experiences have shaped my ability to bridge AI, business strategy, and technology to drive impactful change.

As the Founder of AI LearnX Innovations, I focus on AI consulting, corporate training, and product development, helping businesses leverage Generative AI, automation, and intelligent workflows for real-world impact. I've trained 5,000+ professionals across industries, working with companies like L&T, Tata Motors, and LG, and I serve as Visiting Faculty at leading business and technology institutions.

Beyond consulting and training, I've led AI-powered business initiatives, developing solutions in marketing automation, analytics, and decision intelligence to enhance efficiency and drive innovation.

I'm passionate about bridging AI, business strategy, and entrepreneurship to create meaningful impact. Let's connect and explore how AI can shape the future of businesses.
